“Mar Abierto. Realidad, imaginario y poética”

Estamos felices y muy orgullosos de presentar esta novena edición del certamen.

Esta edición es diferente por muchos motivos, en principio, contamos con una nueva sala, el Espacio Expositivo del Archivo de la Autoridad Portuaria de Santander. Es un espacio histórico e icónico en Santander, en pleno barrio pesquero, y a la vez nuevo, ya que la sala se ha rehabilitado totalmente, dotándola de todos los elementos necesarios para que las exhibiciones luzcan espléndidas. Tenemos, también, un nuevo diseño de sala, que hemos ideado para poder albergar a las magníficas 810 piezas que forman parte de la exhibición, jugando con el espacio y replicando la idea de “olas” en los paneles, generando un rico recorrido de sala, para que cada obra se vea “especial”.

Estos cambios nos han impulsado a modificar también el tema del certamen, para que sea más amplio, mágico y más ecuménico y con mayor libertades para la creación y sueños de los artistas.

Tenemos, también nuevos vecinos, que serán nuevos visitantes que se acercarán al espacio para disfrutar de las maravillosas obras.

Pero afortunadamente muchas otras cosas se mantienen a lo largo de éstos años...Lo primero que deseamos destacar es a los artistas, y su compromiso, que, desde diversas partes del mundo convergen con sus trabajos, cada año, brindándonos obras increíbles y fascinantes, con visiones y técnicas diversas, donde dialogan entre todos desde diferentes imaginarios, culturas y mares.

Los miembros del jurado, que este año, tenemos el honor de contar con tres renombrados artífices del mundo de la gráfica. Un lujo!!

Se mantiene, también, la complicidad apasionada que compartimos con la Autoridad Portuaria de Santander y todos los esfuerzos para mejorar cada año.

El incondicional apoyo de El Diario Montañés y el Grupo Nueva Dársena, y por supuesto, nuestra ilusión, energía y la pasión por la obra gráfica.

Muchas gracias a tod@s por hacerlo posible.

“Open Sea: Reality, Imagination, and Poetics”

We are delighted and very proud to present this ninth edition of the competition.

This edition is different for many reasons; for starters, we have a new venue: the Exhibition Space at the Santander Port Authority Archive.

It is a historic and iconic venue in Santander, located right in the fishing district, yet also new, as the hall has been fully renovated and equipped with everything needed to make the exhibitions look spectacular.

We also have a new layout for the space, designed to accommodate the magnificent 810 pieces in the exhibition; we are playing with the space and replicating the idea of “waves” in the panels, creating a rich flow through the room so that every work feels “special.”

These changes have prompted us to broaden the competition’s theme, making it more expansive, magical, and universal, offering greater freedom for artists to dream and create.

We also have new neighbors that will be new visitors who will come to the space to enjoy these wonderful works.

But fortunately, many other things have remained constant over the years...the first thing we want to highlight is the artists and their commitment, coming from all over the world with their work each year, gifting us with incredible, fascinating pieces featuring diverse visions and techniques, a dialogue spanning different imaginative worlds, cultures, and seas.

And the jury members: this year, we have the honor of hosting three renowned figures from the world of graphic art. A real privilege!

We also maintain the passionate partnership we share with the Santander Port Authority and our shared commitment to improving with every edition.

There is the unwavering support of *El Diario Montañés* and the Nueva Darsena Group, and, of course, our own enthusiasm, energy, and passion for graphic art.

Many thanks to everyone for making this possible.

IX Mini Print Internacional Cantabria

El certamen Mini Print Internacional Cantabria simboliza el apoyo de la Autoridad Portuaria de Santander (APS) a la creación artística, así como la vocación universal que rige su actividad, tanto dentro como fuera del ámbito cultural. El certamen, que nació en el marco de la Conferencia Impact 10 (2018), experimentó un crecimiento extraordinario desde el comienzo de su andadura, consolidándose desde el principio como una cita de referencia en el panorama internacional de la gráfica.

La APS ha formado parte de la organización en todas sus ediciones, posibilitando tanto la muestra de los trabajos presentados cada año en las salas del Faro de Cabo Mayor como los tres premios adquisición a las mejores obras del concurso. Esta circunstancia, unida a la enorme generosidad de los artistas participantes, ha permitido conformar un fondo específico que alcanza ya las 4.000 obras gráficas en pequeño formato.

Para este año 2026, en el marco de su novena edición, Mini Print Cantabria presenta una importante novedad, pues traslada su sede oficial al nuevo espacio expositivo del Archivo General de la Autoridad Portuaria. Este movimiento ha motivado también la apertura del tema de la convocatoria hacia un concepto más amplio de inspiración marítima, titulado Mar Abierto. Realidad, imaginario y poética.

Antiguo almacén de carácter industrial construido a principios del siglo XX, el Archivo es sin lugar a duda uno de los edificios más especiales del Puerto de Santander, tanto por su ubicación en el corazón del Barrio Pesquero como por su historia, ya que constituye hoy, a excepción de la red de faros, el edificio en activo más antiguo de todos los que gestiona la APS. Se encarga de conservar y custodiar el patrimonio documental del Puerto, pero también su colección de arte, habiendo sumado recientemente además dos nuevos espacios como salón de actos y sala de exposiciones respectivamente.

Quiero aprovechar estas líneas para destacar la labor de los comisarios de la exposición y directores de SM Pro Art, Andrea Juan y Gabriel Penedo, por haber logrado encajar en el nuevo espacio un diseño que permite contar a cada participante con una adecuada visibilidad, así como por haber hecho posible, un año más, este espectacular muestrario del mar desde la variedad técnica y estética del grabado, un arte en miniatura que se escribe con mayúsculas.

IX International Mini Print Cantabria

The Mini Print Internacional Cantabria competition symbolizes the Santander Port Authority's (APS) support for artistic creation, as well as the universal outlook guiding its activities, both within and beyond the cultural sphere. Launched during the Impact 10 Conference (2018), the event has experienced extraordinary growth since its inception, quickly establishing itself as a key fixture on the international printmaking scene.

The APS has been involved in organizing every edition, facilitating both the annual exhibition of submitted works at the Cabo Mayor Lighthouse galleries and the three acquisition awards for the competition's best pieces. This involvement, combined with the immense generosity of the participating artists, has enabled the creation of a dedicated collection that now comprises 4,000 small-format graphic works.

For its ninth edition in 2026, Mini Print Cantabria introduces a significant change: the relocation of its official venue to the new exhibition space at the Port Authority's General Archive. This move has also prompted a broadening of the competition's theme to a wider concept inspired by the sea, titled: Open Sea: Reality, Imagination and Poetics.

Originally an industrial warehouse built in the early 20th century, the Archive is undoubtedly one of the Port of Santander's most distinctive buildings. This is due to both its location in the heart of the Fishing District and its history; aside from the lighthouse network, it is the oldest active building managed by the APS. It is responsible for preserving and safeguarding the Port's documentary heritage and art collection, and has recently added two new spaces: an assembly hall and an exhibition gallery.

I would like to take this opportunity to highlight the work of the exhibition curators and directors of SM Pro Art, Andrea Juan and Gabriel Penedo. They succeeded in creating a layout for the new space that ensures adequate visibility for every participant and, once again, made possible this spectacular showcase of the sea, expressed through the technical and aesthetic diversity of printmaking: a miniature art form of the highest order.

Eugènia Agustí

Artista visual y profesora agregada Serra Húnter, docente en la Sección de Procesos Artísticos y Edición del Departamento de Artes Visuales y Diseño de la Facultad de Bellas Artes de la Universidad de Barcelona.

Desde siempre me ha interesado la codificación propia del lenguaje gráfico y explorar las correlaciones entre color y abstracción geométrica, así como examinar los procesos de estampación en la imagen editable y su despliegue técnico. El Grabado y las publicaciones de artista que estudian la forma libro están siempre presentes en mi trabajo. Algunas han sido premiadas en diversos certámenes siendo destacables: Ayuntamiento de Burgos, Premio artista novel Calcografía Nacional, Premio Carmen Azorena, Premio de Grabado Certamen José Caballero, Col·lecció Banc de Sabadell Arts Libris. Otras han formado parte de exposiciones en diferentes contextos y países.

Soy miembro de «13L Libros de artista» y formo parte de «IMARTE: Grupo de investigación en procesos artísticos y nuevas tecnologías» donde analizamos los desplazamientos que las tecnologías digitales ejercen en las producciones artísticas como generadoras de nuevos lenguajes que atraviesan arte, ciencia y tecnología.

Visual artist and Serra Húnter Fellow, lecturer in the Artistic Processes and Publishing Section of the Department of Visual Arts and Design at the Faculty of Fine Arts, University of Barcelona.

I have always been interested in the codification of graphic language and exploring the correlations between colour and geometric abstraction, as well as examining the processes of printing in editable images and their technological deployment. Printmaking and artist publications that study the book form are always present in my work. Some of them have won awards in various competitions, notably Burgos City Council Printmaking Award, Calcografía Nacional «Young Artist Award», Carmen Azorena Award, José Caballero Engraving Competition Award, and Col·lecció Banc de Sabadell Arts Libris Award. Others have been part of exhibitions in different contexts and countries.

Member of «13L Artist's Books» and researcher at «IMARTE: Research Group on Artistic Processes and New Technologies», where we analyse the shifts that digital technologies exert on artistic productions as generators of new languages that traverse art, science and technology. Usama Habil

Usama Habil Habil (Damasco, 1985) es artista, investigador y docente especializado en grabado y arte contemporáneo. Es doctor en Bellas Artes por la Universidad Complutense de Madrid, donde defendió la tesis “Modernidades frustradas: discursos críticos en el arte árabe en Oriente Próximo (2000–2015)”.

Entre 2013 y 2025 ejerció como maestro de grabado y asistente de producción en Benveniste CP&P, colaborando con destacados artistas nacionales e internacionales. Actualmente es Profesor Ayudante Doctor en el área de Dibujo en la Facultad de Bellas Artes de la Universidad de Salamanca.

Su trayectoria combina de manera estrecha la práctica artística y la investigación sobre el arte contemporáneo de Oriente Próximo. A través de su obra, la docencia, los talleres y sus publicaciones, explora y construye vínculos entre Europa y Oriente Próximo. Obtuvo el 1º Premio en el VIII Mini Print Internacional Cantabria.

Usama Habil Habil (Damascus, 1985) is an artist, researcher, and lecturer specializing in printmaking and contemporary art. He holds a PhD in Fine Arts from the Complutense University of Madrid, where he defended the thesis, “Frustrated Modernities: Critical Discourses in Arab Art in the Middle East (2000–2015).”

Between 2013 and 2025, he worked as a printmaking teacher and production assistant at Benveniste CP&P, collaborating with prominent national and international artists. He is currently Dr. Assistant Professor in the Drawing Department at the Faculty of Fine Arts of the University of Salamanca.

His career closely combines artistic practice with research on contemporary art from the Near East. Through his work, teaching, workshops, and publications, he explores and builds connections between Europe and the Middle East. He won the 1º Prize at the VIII International Mini Print Cantabria.
